

Day #1 - Dec 12, 2025

| Day #1 - Dec 12, 2025 | |
|-----------------------|---|
| 8:00 - 9:00 | Registration |
| 9:00 -9:30 | Opening Ceremony |
| 9:30 -10:00 | Keynote 1: Prof. Yousry Elgamal |
| 10:00 -10:30 | Coffee Break |
| 10:30 -11:00 | Keynote 2: Prof. Ashraf Ahmad |
| 11:00 - 11:30 | Keynote 3: Mr. Waleed Khalil |
| 11:30 -13:30 | Friday Prayer |
| 13:30 - 14:00 | Keynote 4: Dr. Faisal N. Abu-Khzam |
| 14:00 - 15:00 | Lunch Break |
| 15:00 -15:30 | Keynote 5: Latif Ladid |
| 15:30 -16:00 | Speakers Recognition Ceremony |
| 16:00 - 19:40 | In-person presentations (10 presentations) |
| 16:00 -16:20 | 22: Expanding Competitive Programming Education in Palestine: A Multi-Level Training Model to Develop Problem-Solving Skills Across Universities |
| 16:20 -16:40 | 39: Embedding-Based Approaches for AI-Generated Text Detection |
| 16:40 -17:00 | 41: Mind, Performance, and Well-being: An Integrated Analytical Study on Influencing Factors and Supportive Interventions for Student Mental Health |
| 17:00 -17:20 | 17: The Impact of Using a Platform Based on Journalistic Scientific Writing (JSW) on Developing writing, scientific concepts, and Future Skills among Students in the Sultanate of Oman |
| 17:20 -17:40 | 26: Leveraging Virtual Reality for Persistent Postural-Perceptual Dizziness |
| 17:40 -18:00 | Coffee Break |
| 18:00 -18:20 | 36: Revolutionizing Dental Imaging: AI for Automating Tooth Identification and Labeling |
| 18:20 -18:40 | 37: A Mobile Application for Early Detection of Skin Cancer |

| | |
|--------------|---|
| 18:40 -19:00 | 38: Developing a VR Framework for Robot Arm Teleoperation |
| 19:00 -19:20 | 44: Towards Data Analytics Using Contextualized Knowledge Graphs |
| 19:20 -19:40 | 11: Problem Solving Training Impact on Employment Ratio for IT Students in Palestine: PCPC Case Study (2012–2025) |

Day #2 - Dec 13, 2025

| Online presentations (17 presentations) | |
|---|---|
| 9:00 -9:20 | 31: A Deep Learning Approach for Speaker Recognition Using CNN-BiLSTM with Attention Mechanism |
| 9:20 -9:40 | 32: A Review of Large Language Models in Programming Education: Implications for Computer Science Learners |
| 9:40 -10:00 | 23: Evaluating the Skills Required for ICPC Programming Contest in Palestine: An Analytical Study |
| 10:00 -10:20 | 20: The Golden Triangle in Human-Machine Interaction: Deep Learning, Reinforcement Learning, and Natural Language Processing - A Survey |
| 10:20 -10:40 | 12: Bridging the Skill Gap in Aircraft Maintenance Engineering: Evaluating the Role of E-Learning in Technical Training |
| 10:40 -11:00 | 46: Constraint-Based Learning for Trustworthy Student Performance Prediction |
| 11:00 -11:20 | 40: Triple-key mode of operation for block cipher encryption: An enhancement of AES-XTS |
| 11:20 -11:40 | 4: Multi-XAI and SHAP-Guided Feature Pruning for Explainable File Fragment Classification in Cyber Forensics |
| 11:40 -12:00 | 16: Robust Malicious Client Detection in Federated Learning Using Multi-Metric Self-Organizing Maps and Hassanat Distance |

| | |
|---------------------|--|
| 12:00-13:20 | Break |
| 13:20 -13:40 | 34: The Quantum Countdown: How Healthcare Can Achieve Crypto-Agility Before Q-Day |
| 13:40 -14:00 | 35: AI-Driven Cybersecurity in Intelligent Transportation Systems: A Comprehensive Survey of Threats, Defenses, and Future Directions |
| 14:00 -14:20 | 19: Multi-Layer Kerberos Protocol for Edge Computing |
| 14:20 -14:40 | 15: FraudGraph-X: Privacy-Preserving Temporal Graph Learning for Scalable and Explainable Financial Fraud Detection |
| 14:40 -15:00 | 18: A Real-Time Bitstream Encryption Model with Instant Byte-Level Integrity and Authentication |
| 15:00 -15:20 | 29: Leveraging LLMs and Prompt Engineering for Reverse Engineering: A Study on Vulnerability Detection in Source and Binary Code |
| 15:20 -15:40 | 51: DRASS-Net: A Hybrid Multi-Scale State-Space Framework for Classification of Forest Tree Species Using Environmental Attributes |
| 15:40 -16:00 | 55: EdgeFusionNet: A Multimodal Edge AI Framework for Real-Time Anomaly Detection and Threat Evaluation in Surveillance Systems |

Day #3 - Dec 14, 2025

| | |
|----------------------|--|
| 17:00 - 9:00 | Competition Attendance |
| 21:00 - 18:00 | Closing Ceremony, Best Paper Award, and Gala Dinner |
